Datasheet

Coherent Chameleon Laser

System description:	Ti:Sa fs laser system, hands free tunable from 720 to 950 nm Pulse width <140fs, noise <0,15%, repetition rate: 90MHz System consists of head, power supply air de-humidifier and purging unit and chiller unit
Laser condition:	Used, excellent condition, 330h total on system
Performance:	produces >1.2W at 800nm with ~8.8W 532nm pump power System is fully tested and performs with spec. or better
